DEPARTMENT OF GENETICS
Professor Joshua Lederberg

Hon. Richard McCarthy
House of Representatives

JUL 15 1969

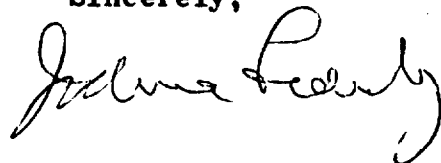

Dear Mr. McCarthy-

Continued congratulations for your efforts
to control BW.

May I impose upon you for two to ten copies
(according to how conveniently you can accomodate
me) of the recent report of Secy.¹ General Thant's
committee. We are holding a student seminar on
BW and international controls, and this document
would be of central importance to that educational
effort.

Please let me contribute fairly to the expense
thereof -- just give me an idea what I should send
by return mail.

Sincerely,

RICHARD M. MCCARTHY
